Telephone Directory

Which has obvious advantages over any other medium

IT GETS INSIDE the office door and into the home; it reaches the business man and housewife. Magazines and newspapers do this, but they are short lived. The Telephone Directory gets there and stays there—it is on duty constantly, day and night, every day in the year.

STOCKRAISERS

ARE SUBSCRIBERS OF

The Pacific Telephone & Telegraph Co.

HOUSE HUNTING is made easy by the use of the Telephone.

Few people realize how much business they can do and how quickly they can do it over the wire. It is not even necessary to be in the same town, because the Long Distance Service of the Bell System brings everyone within talking distance.

In all the business and social affairs of life, people put their trust in the Bell Service because it is universal.

**THE PACIFIC
TELEPHONE & TELEGRAPH COMPANY**

Every Bell Telephone is the Center of the System

The Economy of Adequate Telephone Facilities

A BUSINESS establishment inadequately equipped with telephone service may save a few dollars each year on its telephone charges but lose a much larger amount on account of the time wasted by its officers and employees. Of even greater seriousness is the fact that customers, discouraged because of inability or delay in reaching the concern, will transfer their trade to some more progressive establishment.

TRUE economy equips an organization with the means of conducting its business in a systematic way, and with the least possible loss of time and energy on the part of its working force. The additional expense of a few dollars per year in telephone equipment may result in the saving of hundreds by increasing the working capacity of the organization and facilitating communication with customers.

Are Your Telephone Facilities Adequate?

If you are in doubt about it notify us, and we will make an investigation to determine what changes, if any, are needed. No obligation is incurred by asking for such investigation. Telephone nearest Contract Office and a representative will call.
